

Interview Practice

Mock Interviews and Big Interview

The Career Center offers you mock interviews to practice for any job or graduate/professional program interview. Mock interviews involve an interviewing role-play session followed by a critiquing session. The session is usually completed in an hour. The Career Center asks that you submit a resume, along with a job description, to the Career Center so that the staff member conducting the interview can prepare and structure an interview that is industry specific. You should also dress professionally for the mock interview, as interview attire will be discussed and critiqued as well.

To schedule a mock interview, please contact the Career Center at 662-915-7174 or office@career.olemiss.edu.

The Career Center also offers Big Interview, which gives you the ability to practice, save, and conduct online interviews from any computer that has webcam capabilities. Find out more at <https://olemiss.biginterview.com/>.
